INTRODUCTION

— Brand Manual

Welcome to the SOZO Brain Center family. This brand manual serves as a comprehensive guide to help you understand, apply, and preserve the core identity of the SOZO brand as you establish and grow your own SOZO Brain Center facility. Within these guidelines, you will find clear direction on visual standards, messaging, and brand principles that reflect our mission, values, and commitment to excellence. By adhering to these standards, you help ensure a consistent, cohesive, and recognizable brand experience—one that builds trust, strengthens our collective presence, and resonates deeply with the communities we serve.

Our Vision

Empowering physicians to lead the future of medicine by utilizing drug-free, brain stimulation protocols which can be subsequently offered to their patients for treatment.

Our Mission

Rooted in the meaning of ancient Greek word “σώζω”- to save - our mission is to transform the lives of those suffering from neurological, chronic and mental health conditions through evidence-based, advanced neuromodulation treatments.

OUR NAME, OUR LEGACY

— Who We Are

SOZO Brain Center is an organization dedicated to advancing the field of neuromodulation techniques by serving as an international hub for clinical excellence, research and education. By utilizing clinically validated, non-invasive brain stimulation, SOZO supports patients suffering from a wide range of neurological, chronic, and mental health conditions. These evidence-based therapies include tDCS, taVNS, TPS, CES, MET and more, with extensive scientific research substantiating the medical efficacy of these modalities. For patients, this medical approach demonstrates measurable improvements in outcomes and substantial long-term reductions in treatment costs. For doctors, they are empowered with drug-free, brain stimulation protocols which can be subsequently offered to their patients for treatment.

LOGO CONSTRUCTION

— Our Visual Identity

Our brand name originates from the ancient Greek word σῶζω, meaning “to save” reflecting our vision to save patients from suffering. The Greek Omega (Ω) was intentionally chosen as a central element of our identity, symbolizing both completion and protection. In modern neurosurgery, the “omega sign” is a critical anatomical landmark in the brain that allows surgeons to identify and avoid damaging functionally critical brain regions. This scientific significance aligns with historical foundations of neuromodulation, as ancient Greek physicians utilized electrical stimulation for healing through electric eels applied to the head. Inspired by this union of ancient medicine and modern neuroscience, our logo combines the Greek Omega with the image of a brain-representing precision, innovation, and our enduring commitment to healing through advanced neuromodulation treatments.

IDENTITY

— The Brand

LOGO

— Guidelines

USE White logo on gradient / colored background

USE Orange with white text logo on Black Background

USE Colored logo on white Background

Minimum Sizes of logo for Digital & Offset

COMMUNICATION

— Guidelines

Effective communication is essential to build and maintain trust across all channels and audiences. Every interaction should reflect our commitment to help patients who are suffering through our advanced neuromodulation techniques.

CORE COMMUNICATION PRINCIPLES

- Compassionate** – Recognizing the vulnerability of those affected by neurological and mental health conditions.
- Clear** – Communicating complex concepts in an understandable and impactful manner.
- Accurate** – Grounded in evidence-based science.
- Consistent** – Reinforcing a unified voice, tone, and message across all platforms.
- Empowering** – Inspiring confidence in both patients and medical professionals.
- Scientific Integrity:** Evidence-based medicine guides all decisions.

MARKETING MATERIALS

— Stationery & Leaflets

Marketing materials and stationery are essential brand assets that support SOZO Brain Center’s communication, operations, and patient experience. This category includes items such as business cards, letterheads, forms, treatment documents, leaflets, brochures, and other printed or digital materials. Each piece is designed to reflect the SOZO Brain Center brand identity consistently, ensuring clarity, professionalism, and trust at every touchpoint. Through cohesive design and messaging, these materials reinforce our brand values and help communicate important information effectively across all interactions.

— Patients

Patients and their loved ones often experience moments of vulnerability, uncertainty, and emotional distress. Our communication with this audience must be rooted in empathy, reassurance, and hope. By acknowledging their challenges and speaking with clarity and compassion, we build trust and show our support to patients throughout their healing journey-especially when conventional treatments have failed them multiple times.

KEY APPROACH

- Use supportive, compassionate language
- Avoid overly technical terminology
- Clearly explained any medical terminology when used
- Emphasize on prospects, safety, and patient outcomes

— Medical Professionals

Physicians and Healthcare professionals depend on precise, evidence-based information to guide critical clinical decisions. Even minor inaccuracies can negatively impact trust and credibility. Communication with this audience must demonstrate scientific accuracy, clarity, and respect for clinical expertise.

KEY APPROACH

- Prioritize accuracy, data, and clinical relevance
- Maintain a professional, confident, and approachable tone
- Respect medical knowledge and avoid oversimplification

— Tone of Voice

Healthcare industry usually requires a more serious tone, given the profound impact medical decisions have on human lives.

However, communication often becomes impersonal, relying heavily on complex and technical language that can distance audiences from the message. At SOZO, we believe clinical excellence and human connection **must** coexist.

Our communication should be inclusive and collective, using language such as “we” and “our” to build trust and convey the desired message clearly. Complex medical concepts must be presented clearly, educational without being overwhelming and engaging without sacrificing accuracy.

We are addressing individuals who are suffering. Every message should therefore show empathy and expertise, while demonstrating our solid commitment to patient-centered care.

Clarity is essential. Thoughtful, compassionate communication reinforces our mission and ensures our audience feels informed, respected, and supported at every point of their treatment journey.

WORDS TO USE

Supporting treatment, evidence-based, non-invasive, drug-free, Multidisciplinary Medical Team, Intellectual Property protocols, advanced neuromodulation techniques

WHAT TO AVOID

We treat, miracle cure, stop medication, substitute existing treatments

Color Palette

All official printed and branded materials-including, but not limited to, business cards, letterheads, brochures, presentations, and flyers-will be provided to you upon enrolment in the SOZO Partnership Program. These materials are designed to ensure brand consistency, accuracy, and alignment with SOZO’s communication standards.

If any materials are missing, require updates, or if you have questions regarding appropriate usage or customization, please contact the SOZO Marketing Team at **marketing@sozobraincenter.com**

Our team is available to support you and ensure all communications reflect the integrity, professionalism, and visual identity of the SOZO brand.

BRANDING

— Interior Design & Environment

SOZO Brain Center Partner spaces must prominently feature SOZO-branded signage both indoors and outdoors. crafted from PVC or a comparable high-quality material, and positioned in clear view opposite or near the primary entrance to ensure immediate brand recognition. Interior design should be directly inspired by the SOZO prototype spaces, incorporating a harmonious balance of the SOZO color palette, natural textures, and refined visual elements that convey innovation, calm, and professionalism.

Consultation and treatment rooms should embody a welcoming, lounge-inspired aesthetic—prioritizing comfort, warmth, and tranquility. Comfortable seating, soft lighting, and thoughtfully selected furnishings are essential to creating a relaxed environment for patients during their treatment sessions. Reception areas must remain clean, organized, and visually cohesive, reflecting SOZO's commitment to excellence, attention to detail, and a patient-centered experience from the moment individuals enter the space.

SIGNAGE & BRAND PRESENCE

- SOZO 3D logo signage made from PVC or a comparable premium material
- Logo prominently displayed in reception or opposite/near the main entrance
- High contrast between logo and background for visibility

COLOR PALETTE & MATERIALS

- Consistent use of the SOZO brand colors
- Natural materials such as wood textures, marble/stone finishes
- Greenery (natural or high-quality artificial) used as an additional key visual element

FEATURE WALL / BRAND WALL

- Signature green wall or textured feature wall with integrated SOZO logo in white
- Green wall placed in reception or opposite/near the main entrance
- Clean, modern execution—no clutter or competing visuals

CONSULTATION & TREATMENT ROOMS

- Lounge-inspired aesthetic rather than traditional clinical setup
- Comfortable, upholstered chairs
- Soft, warm lighting
- Medical equipment integrated discreetly into the space

RECEPTION AREA

- Clean, organized layout
- Warm, welcoming seating (e.g., chairs in brand colors)
- Clear SOZO branding upon entry
- Professional yet calming atmosphere that reassures patients

Digital Presence

Website Design and Layout: All partner websites must align with the official SOZO website design style to ensure visual and functional consistency across the brand. Websites should feature intuitive navigation, clear structure, and full accessibility across devices. Content must be reviewed and updated regularly to ensure accuracy, relevance, and compliance with medical communication standards. Only approved graphics, visual assets, and design elements provided by the SOZO Marketing Department may be used.

Social Media Guidelines: Social media content should be engaging, informative, and reflective of SOZO’s clinical expertise and patient-centered approach. Posts should highlight the benefits of our neuromodulation treatments while maintaining accuracy and professionalism. Use relevant hashtags to enhance reach and visibility and actively engage with followers in a respectful and informative manner. Authentic patient testimonials drive meaningful patient engagement, while scientifically supported content strengthens credibility and trust among physicians, medical professionals, and patients.

Email Signature Standards: All professional email correspondence must include a standardized SOZO email signature featuring your full name, title, contact information, and the official SOZO banner provided by the SOZO Marketing Department. Consistent formatting and a polished presentation are essential to maintaining a professional and unified brand presence across all communications.

By adhering to this brand manual, you help preserve the integrity, credibility, and distinct identity of the SOZO Brain Center brand as you build and grow your practice. Your commitment to consistency and excellence strengthens our unified presence and reinforces the trust placed in us by patients and medical professionals. Together, we advance the future of neuromodulation care through advanced neuromodulation techniques.

Thank you for your dedication to clinical excellence, compassionate care, and the SOZO mission.
